Stock Level vs Daily Demand

This bubble chart maps each **category's demand** against its **stock levels**, with bubble size showing total demand. The blue lines split it into **zones**, making it easy to spot **overstocked**, **understocked**, and **balanced categories** at a glance.

Overview

This warehouse dashboard tracks key metrics like daily demand, stock levels, turnover, and stockout rate.

It highlights seasonal trends and category performance to optimize inventory, prevent stockouts, and improve decision-making.
